WARRANTY INFORMATION

CTA does not recommend replacing one tire at a time on a vehicle. Fitting a vehicle with an improper mix of tire sizes, constructions, and speed ratings can be dangerous. Consult the vehicle owner's manual to determine proper mixing, matching, or when replacing tires with different sizes, constructions, and speed ratings. If all of the ground tires are Not replaced at one time, then at a minimum, CTA recommends replacing all tires on the same axle at one time (see the vehicle owner's manual for 4x4 vehicles for whether there are additional recommendations). This is especially recommended for tires that are listed in this product guide with alternate article numbers. Tires that are identified with alternate article numbers are nearly identical to the tires that they are replacing, but may have slight differences. One difference can be the tread design or pattern which can make the alternate tires incompatible for mixing on the same axle as a different tire.

- Robust durability
- Superior fuel efficiency
- Improved snow performance*
- Excellent traction

3-Peak Mountain Snowflake
Meets the severe snow service requirements of the U.S. Tire Manufacturer's Association (USTMA) and the Tire and Rubber Association of Canada (TRAC).

Wear Conversion:
> 5mm = 6/32"
> 4mm = 5/32"
> 3mm = 4/32"

This three (3) year complimentary service is only valid on tire purchases completed on or after February 1, 2015 and is designed to help in the event of a flat tire. Limit of 3 covered events for the coverage of term. To qualify for Flat Tire Roadside Assistance tires must be registered online after the date of purchase.

To register, complete the steps outlined below:

- **Step 1:** After you have made your tire purchase have available your purchase receipt, Vehicle Information Number (VIN), along with the year/make/model of the vehicle to be registered to complete the online registration form. These items will be required to register and registration cannot be completed without them. A valid email address is also required to complete your registration and receive your Roadside Assistance Registration Card as well as other important terms and conditions.
- **Step 2:** To register tires go to **totalconfidence-plan.com** and complete the online registration form. If you do not have internet access or a valid email address, registration may be completed by calling: 888-990-6125, and press "2".
- **Step 3:** If registration was completed online your Flat Tire Roadside Assistance Card along with program terms and conditions will be emailed to you. If registration was completed by phone your documentation will be mailed.

Once you receive the Roadside Assistance Registration Card via e-mail, please print the card, along with the program terms and conditions, and keep this information in your glove box. The card will contain a toll-free number to call when assistance is needed.

Whenever you are in need of the Flat Tire Roadside Assistance service simply call the toll free number provided on your Roadside Assistance Registration Card. You will be prompted to provide your program membership number and a live agent will assist you, asking the necessary questions, including vehicle VIN number, make, model, location, etc., to process your request and dispatch a service provider. Service will not be provided on an unattended vehicle unless you cannot or should not remain with the vehicle for safety reasons; or if the vehicle was involved in an accident, theft or vandalism.

Flat Tire Roadside Assistance coverage includes:** 24/7 live agent service; Tire Change with the owner's properly inflated spare only. There is a \$200 limit per tire change. Should the service amount exceed the \$200 limit, the customer would be required to pay the

overage to the service provider at the time of service. The customer will be informed before service is dispatched if there is an overage amount. If the customer does not have a workable spare or if the vehicle has two or more flat tires and requires a tow, there is a towing limit of 150 miles. The dollar limit would not apply to this. The vehicle will be towed to their destination of choice; if the destination exceeds 150 miles they would be charged for the excess mileage. The customer will be informed of any costs prior to service being dispatched. Towing up to 150 miles for two or more flat tires or no workable spare (no mechanical breakdown). You are responsible for any amounts over the \$200 for tire change or 150 miles for tow; and such charges are payable to the service provider at the time of service.

Important: All Authorized Service Providers are independent contractors and not agents or employees of Continental Tire the Americas (CTA). CTA assumes no liability for any damage to your vehicle resulting from the rendering of service or for personal items left in the vehicle. Any claims for personal injury or damage to the property must be submitted to the servicing provider directly. Flat Tire Roadside Assistance is provided by RoadsideProtect, Inc. through Signature's Nationwide Auto Club, Inc.

PASSENGER TIRE AND LIGHT TRUCK DEPTH CONVERSION TABLE TO PERCENTAGE OF WEAR

All numbers to the right designate the percentage of usable tread remaining, used to determine credit due to customer toward the purchase of a replacement tire. The numbers to the left designate the percentage of usable tread worn, to determine customer's charge for a replacement tire.

To obtain the remaining tread depth, take 3 measurements around the tire and average. Locate (below) the tire's original tread depth. Read down and across matching the tire's measured remaining tread depth. Use the percentages shown as a charge and/or credit towards the purchase of a replacement tire.
