# Google My Business Advertising

Before you can help your customers drive safely, you've got to drive them to your store in the first place. Nokian Tyres has launched a program to turn online shoppers into your customers! We are introducing the Nokian Tyres Digital Advantage, completely free of charge as part of NAD Program. Here's how it works:

**Nokian Tyres works with Google to place digital ads around your business location.**

**These ads attract customers to your store.**

**Then, we measure how many people enter your store after seeing them.**

**Finally, we'll share that information with you.**

We'd love to work with you to draw business to your shop. If you're interested, simply follow the directions below:
